- **Class graduating from:**

255 responses

- **Department / Specialization:**

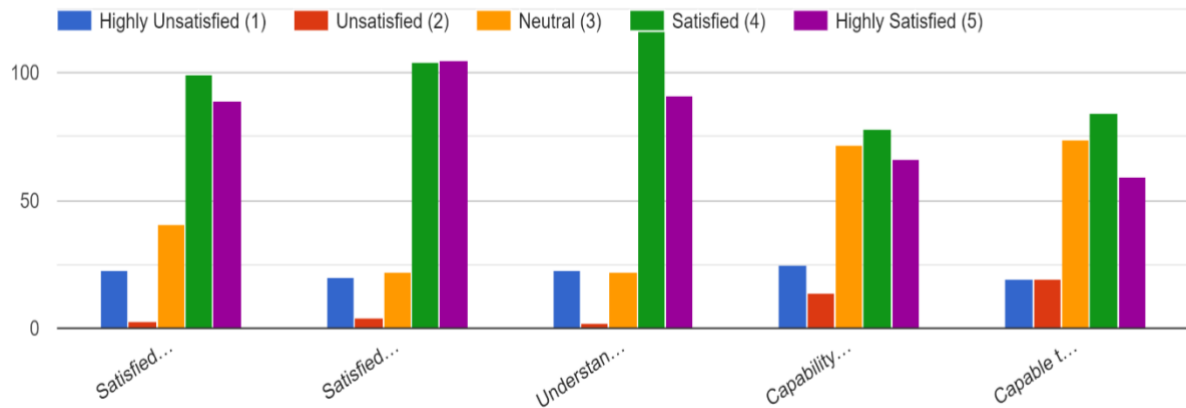

255 responses

- **Rate the following on a scale of 1 – 5, with 1 being highly unsatisfied and 5 being highly satisfied**

- Satisfied with the skills (practical) learnt in your course

- Satisfied with the knowledge (theory) gained in your course
- Understanding of subject matter
- Capability to be employed in the industry (in the field of your specialization) with your education
- Capable to start your own entrepreneurial venture

Most liked subject from your specialization	Least liked subject from your specialization	Areas of strength of the specialization	Areas of improvement of the specialization
Psychological disorders	None	The program is meticulously planned and well functioning.	None
Developmental Science	-	Developmental Science	Too broad, lacks specialisation
Counseling	Statistics	Overall development	Overloaded with work 😊
Almost all subjects for they are helpful in one way or other	None	The course helps in a holistic development of an individual.	There can be more practical experience provided to the children which can help in development of personal and professional skills along with building contacts in the work industry.
Introduction to Counselling, theories, human exceptionality	Curriculum planning	Professors	None
Curriculum planning and Assistentment of Early Childhood Education	Introduction to Psychological Disorder	Practical	Theory should be more interactive
Special Education	None	Teachers	Vast portion
All	None	-	None

Advance study of Pyschological disorders	None	All the teachers in this specialization are best and are great at teaching	None
Advance study of Human Exceptionality	Developmental Science	Communication	Departmental Communication
Social psychology	Not such	Counseling, psychology	No improvement needed..👍
All	None	syllabus is well built	Can focus more on how and where to get the best suited jobs
Disorders and psychological disorders	Nothing	Counseling, family and marriage	Nothing
Developmental science	No	Human development teacher's put their heart and soul in teaching and partnering the student in learning.	No
Psychological testing	Not yet	Application	Not yet
Human exceptionality	Curriculum planning & early childhood education	Field work	Public speaking
Developmental Science	None.	Research and Statistics, Developmental Science, Abnormal Psychology, Psychological Testing	- Employment opportunities in areas other than ECCE - increase the duration internship for Master's program
HDFS	MSHBD	Amazing content	To put more about counseling and further opportunities
Special education	Counseling	Teaching	Explanations
All subjects	Chemistry sem6 , illustration practical	All departments teachers	Good
Theories of studying Human Behaviour and development.	Human exceptionality 2	Curriculum Planning of children	N/A
Social psychology	Methods of studying human behavior and development	Counseling	Research
School administration	Human exceptionality	Practical knowledge	Field work
Human Exceptionality	CPAECE	Real-time life skills	More employment opportunities
Introduction to counselling	Curriculum Planning	Knowledgeable, practical	None
Food psychology and Public Health Nutrition	Advances in Human Nutrition	Teaching faculty	More practical approach, more updated and more exposure to industry.
Therapeutic Dietetics	Not any	Clinical Nutrition and Therapeutic Dietetics	Nutrition in athletes
Human exceptionality , Counseling and Theories of human	None	The curriculum and pedagogy of delivering is excellent	None

behaviour and development			
IPD	CPAECE	Disorders	Improved in communication skills
Diet Therapy	Entrepreneurship	MNT , Diet Therapy, Human Nutrition	Became more strong after learning entrepreneurship skills and can plan to open up my own venture
Clinical Nutrition	None	Clinical Nutrition and practical approach	The topic of Physiology can be added and more on-field experience should be provided.
Human nutrition	Entrepreneurship	Good faculty	Face to face Practical experience
Introduction to counselling	Human exceptionality	None	None
Clinical Nutrition	Non	In depth knowledge about the field	On field education
Diet therapy	Community nutrition	Diet therapy theory and practical	None
Curriculum planning	Human exceptionality	Online teaching	The class should be more interactive
Social psychology	Human exceptionality	Counselling
Diet Therapy	None	It's quite an holistic approach towards the curriculum. The students get to learn quite a lot from an amazing team of teachers.	Practical based projects, Internships, Short courses on Physiology and Anatomy
All the subjects.	-	Development of individual.	-
Human exceptionality, IPD	None	Human exceptionality, IPD	Testing
Food psychology and clinical nutrition	Biochemistry	Clinical	More industry specific
Curriculum Planning	Counselling	Teaching students	No
Clinical dietitics	Food science	Practical and research	Alternative therapy
Counselling	None	None	None
Clinical Nutrition & Diet Therapy	Food Service Management	Human Nutrition and Biochemistry	More of Practical Approach and onfield exposure to the students
CAD	-	Overall knowledge is given of the specialization	.
Fashion Studies	Laundry science	.	.
Human Exceptionality	Methods of Studying Human Behaviour and Development	Interesting content, interactive lectures and practicals with good experience, supportive teachers.	-
Alternative Therapies	Group Research Project	Extensive and Wide exposure to Knowledge	More practical and at field experiences
Theories of Human Behaviour & Counseling	None	Theories and counseling	All

Clinical nutrition and diet therapy	None	Clinical nutrition and diet therapy	Sports nutrition, anatomy and physiology
Clinical nutrition and diet therapy	Biochemistry	Diet therapy, food industry, community nutrition	Human physiology, biochemistry basics
Clinical Dietetics	Nutritional Biochemistry	Practical approach, training is provided well in college it helps one to adapt and adjust faster in a work setup, constant assignments and deadlines prepares us better to work even under pressure in the work set-up	More field visits
Clinical Nutrition and Diet Therapy	None	Clinical Nutrition and Diet Therapy, entrepreneurial skills	Sports nutrition, anatomy, physiology and brief learning about different exercises
Human nutrition	Biochemistry	Vast and diverse syllabus which covers everything	Short time period
Diet therapy	Metabolism	Got to know about of various Clinical Diseases	It could be more useful and easier if physiology would be added as well.
Clinical Nutrition and Diet therapy	Entrepreneurship in Food	Teachers and their Knowledge for the subject	Can keep an Internship for students to enhance practical knowledge
Theories of human behaviour and development	Curriculum planning and assessment in early childhood education	Boost one's self confidence, social skills and capable of starting own venture.	Nothing
Introduction to counselling	Cpaece	General Knowledge, human development,	Cognitive,
Research methodology and biostatistics	Maternal and child nutrition	Research methodology and biostatistics	Upgraded syllabus
Diet therapy	Biochemistry	Community health and wellness and all rounder knowledge skills	Removing biochemistry as a subject and introducing physiology as a subject in the specialization
Public health nutrition	No all subjects were good	Diet counseling & planning, Nutrition Programme management, Community nutrition	Public speaking, exercise & fitness, food psychology
Visual Merchandising	-	Giving us clear vision of the concept taught according to industrial based.	-
Counseling and Psychological Testing, and Research	None	The incredible and varied insights by our Lecturers in each subject studied has not only maintained the interest in our subjects but has also given us a broad spectrum of future prospects in this field.	NA

Curriculum Planning and Assessment in early childhood	Introduction to psychological disorders	Practical knowledge	-
Fashion studies	Na	Designing	Na
Introduction to psychological disorder	Curriculum planning	Introduction to psychological disorders	Psychological testing
Diet therapy	Food processing	Knowledge share	Practical knowledge share
Food psychology	Human Nutrition	Research	Practical and field work
Human Exceptionality	Curriculum planning	Counselling, theories of human development	None
Clinical nutrition	Entrepreneurship	The teachers and the the teaching	Need to include physiology as a subject and exposure to the clinical setups or chances of doing internships before passing out.
Counseling , school administration , studying the methods of research	Research	Understanding of special children ,learning about them , leaning the different aspect of social psychology, how to council a person . Learning about traditional ways of teaching children .	Nothing .
Clinical Nutrition and entrepreneurship	None	Clinical Nutrition	None
Children's media	Social psychology	Ecce/ B:ed	Internship for 6 months for everyone
Theories of human behaviour and development	-	Learning modules	-
Diet therapy	Microbiology	Clinical nutrition	Practicals
Management	History	Teamwork, leading groups	Ready to learn new things and explore
Human Exceptionality	HDFS	Improves social skills and self confidence through practicals	None
Woven structure	History	Crochet practical	Nome
Clinical nutrition and human nutrition	None	Very dedicated and patient with students, always motivating and being there for us.	Non rushed lectures and adequate work load
Mnt Clinical	Entrepreneurship	Good teaching faculty	Practical knowledge
Psychological tests and counselling	School administration	Develops empathy	More exposure to practical fields
Dyeing and printing	Merchandizing	Dyeing, Printing, Quality control, finished	None
Human Nutrition	Food processing	Clinical Nutrition and Human Nutrition, Research	Food Industry and Community Nutrition
Clinical Nutrition	Research	Clinical Nutrition	Practical knowledge

Fashion technology, illustration, Indian traditional textile practical,	Apparel designing	Textile testing	Outreach practical exam
Clinical nutrition and dietetics and human nutrition	Applications of food production and service (practical) & FPP	Faculty was very nice, knowledgeable, approachable & understanding. Learnt about how to choose foods correctly for different conditions from both human nutrition and clinical nutrition subject	3-5 day hospital visits for better practical knowledge & experience
Therapeutic dietetics	None	Clinical nutrition	None
Entrepreneurial Skill Development	Clinical Nutrition	Amazing knowledge gained. Very helpful and supportive staff during the entire course	Need to provide enough time for other activity than Studies. More Holistic approach needs to be adopted
Biochemistry.	ESD.	Wonderful overall knowledge and practical skills.	The practical aspects can be included in practicals rather than the hypothetical ones.
Styling	History	Styling	Chemistry
Fashion grooming and styling and CAD/CAM	Textile testing and colouration	Practical is the best part in this specialization and most of the learning is done in practical work	Nothing
Marketing	Fashion History	Product Development	Fashion History
Psychology	Research	Communication	,
Clinical Nutrition and Diet Therapy	Biochemistry	The syllabus	A physiology subject would be nice
Supervision practical	Research methods (theory)	Practical training opportunities	One of the alternative therapies could be included as a subject.
Fashion styling	World history of textile	..	Practical knowledge of market and events
Counseling	Methods and research study	Public speaking	Public speaking
Curriculum Planning	Counselling	Teaching students	No
Curriculum planning	Human exceptionality	Ppts	Practical and theory should be sheduled properly
Knitted and woven fabric	World historic textiles	Practicality of the subjects provided by the teachers.	More practical knowledge related to industries should be given and also advance knowledge of photoshop should be included in curriculum
Fashion Styling	None	None	None
human nutrition & biochemistry	none	practical approach & quality teaching	inclusion of more field work for community nutrition.
Curriculum development	Social Psychology	Counseling	Social psychology

Theories of human behavior and development	Methods of studying human behavior and development	Human exceptionality	Counseling subject
HUMAN EXCEPTIONALITY	SCHOOL ADMINISTRATION	KNOWING ABOUT INDIVIDUALS WHO DEAL WITH OUTSIDE WORLD WHERE PEOPLE DON'T WANNA ABOUT THEM PERHAPS.	School administration
Fashion studies	World history	More practical things then just theories	World history
Theory, human	curriculum	All	Not applicable
Counselling and Human Exceptionality	Marriage & Family	Excellent & supportive faculty, Sorted Curriculum, great opportunities & self growth	Employment training & opportunities
Food psychology and clinical nutrition	Biochemistry	Clinical	More industry specfic
Clinical nutrition	Food service management	Gives good practical exposure	Practical's should not be hectic for students
Cad and cam , computer technologies in apparel marketing	World historic textile	Amazig teachers to explain each and every subject	-
Theories of Human Development	Methods of studying human behaviours and development	Practicals gave us a new insight into the subject	The theory can be a little more engaging
Counselling	Psychological Testing	Interesting subjects and content	Could do better with the conduction of Practical's (online)
Counseling and Developmental Science	Statistics and ECCed	Emphasis on observation and application of skills and theory in daily life.	More focus on other areas of human development apart from childhood development and education. More emphasis on abnormal psychology, counseling, etc.
Product Development and Woven construction	Ttqa	Stitching Technics	Need to provide Placement for internship
Counselling and Human exceptionality	None	Learn social and personal well being and development	None
Marketing	Fashion History	Product Development	Fashion History
Counselling	Hdfs	Counselling	Teaching
Product development	pattern making	The extension work part was good because of that we get to learn new things n to teach others what we have learnt	There should be more classes n practice session of textile designing and fashion illustration
Curriculum planning and assessment in early childhood education	Counselling and psychological testing	The practicals	Even better notes/ppts

Clinical Nutrition	Food production ad services in institution	Diet planning	Should include physiology as a subject in the course
School Administration	CPAECE	Good for learning about children's behaviour	Needed to study about the past educators
Fashion styling	World history of textile	..	Practical knowledge of market and events
Social psychology	Human exceptionality	Human development in family studies	Psychological Counselling
Fashion styling and grooming	World historic costumes	Can start our own startup just by basic knowledge	Practical work should be minimum
Illustration	Weaving, Marketing, vm	Don't know	Need to have more practical knowledge and gaining experience out of the syllabus
Curriculum Planning	None	Helps in overall development	None
Garment construction	Research and statistics	Garment construction	Can improve the transparency between College and industry by increasing the period of internship
Marketing	None	Nil	Nil
Hospitality	None	Teachers	Nil
Ergonomics	Human Resource Management	More of practical knowledge so helps to understand better	Everything is well managed
Embroidery and Draping Practical	Intellectual property	Practicals	Regular field visit
Diet therapy	Food processing	Knowledge share	Practical knowledge share
ErgonomicsQ	Marketing	Wide scope	Needs a next level like masters
Photography and videography, Home textiles, Media and communication	Trend research forecasting (theory)	The vast knowledge bank available and the exposure to explore the fields	Time management for cultural activities
Hospitality and management	None	Outdoor experience, practical knowledge	None
Environment issues and challenges	Consumer behaviour and marketing management	Developing our social skills and polishing our personalities. Preparing us to face the outer world and challenges.	A little more exposure into the various other fields in hospitality in terms of practicals.
Product Development (Practical) Trend Research and Forecasting (Theory)	Research Method and statistic	Apart from the syllabus extracurricular activities (eg. Seminar, Jamboree IV and many more) , extension work and exposure to the industry	No
Theories of studying Human Behaviour and development.	Human exceptionality 2	Curriculum Planning of children	N/A
Fashion grooming and styling, textile testing and quality assurance	World historic costume	All practical subject	In practical of textile designing and fashion Illustration

Hotel front desk office	Housekeeping	Builds create communication skills	Nothing it's perfect
HPEE	Environmental issues and challenges	Unity of the students and teachers	I don't think there is something to be improved in our department.
Hospitality	None	Practicals	None
Human Resource Management	No	More practical knowledge	No
Global merchandising	IPR	Garment construction	Draping
Clinical Nutrition and Dietetics + Advanced Clinical Biochemistry	Community Nutrition + Communication for Behaviour change	In depth knowledge of all the conditions, cycles, reactions, side effects, management in Clinical Nutrition and Nutritional Biochemistry	The study content for Community Nutrition and Communication subjects can be made better with a more practical standpoint. Also, Human Physiology can be introduced as a subject. "Discounts" as a topic can be added in Applications of Food Service and Management Practical.
Traditional embroidery of India	World historical	Woven textile	No improvement needed
Styling , Garment Designing	Styling	Pattern making	Illustration
Pattern making and garment construction	None	Pattern making and garment construction	None
Ergonomic and entrepreneurship management	No	No	No
Psychological disorders	ECE	Counselling	None
Almost all subjects	Costume styling	Pattern making	Need more field work or internship so while passing out we stand somewhere to certain percent
Children academic	Theory	Bed	Activities
Dirt therapy	Food production	In depht knowledýge	Practical knowledge
Early childhood care and education	NA	1.Makes us aware about our own mental health. 2. Overall transformation of our own self into a better person. 3. Field provides a vast knowledge about all the psychological disorders and also way of working with varied age groups.	To have a hands on experience of working with individuals having disability.
School administration	Special needs	School administration	Special needs subject
Early Childhood Education and Family studies	None	Its applicability in dat to day life	More practical experience in the field of counselling and early childhood education

Special Education	Methods of studying human behavior	Practical knowledge	Subject Introduction to counseling should also have some practical experience
HDFS	Human Speacility	HDFS	psychology
Developmental Science	None	The course grooms us fairly for education sector and research work.	Need to emphasise on counselling and special education. Should be recognised.
Hospitality	None	Teachers	Nil
Human nutrition, and Clinical nutrition	None	Clinical nutrition and diet therapy and health mela	Subjects on anatomy and pharmacology to help understand how these factors influence the nutrition strategies.
Clinical nutrition	Biochemistry	Has got good subject combinations	Introduction of subjects such as anatomy, physiology and exercise
Illustration	Weaving, Marketing, vm	Don't know	Need to have more practical knowledge and gaining experience out of the syllabus
Clinical Nutrition	Food service management	Good Teachers and Good study material	More updated knowledge should be given
All the subjects	None	Mens Apperal	None
Illustration	.	Styling and designing	.
Food Processing	Biochemistry	Faculty and their teaching	Need on field experience
Dying technology	Nun	Creativity	Multi tasking
Entrepeunership	none	Good theoretical explanation	Lack of practical knowledge
Clinical nutrition	ANPH	Concepts are clear	More practical work
Human resource management	Entrepreneurship development	Communication skills, personality development	None
Human Resources Management	Interior Designs	Guidance	No practical exposure
Entrepreneurship	None	Good coursework	Less field work
Ergonomics	TQM	Grooming skills	Soft skills
Hospitality and Ergonomics	Interior Design	Course matter	Focus more on Ergonomics
Entrepreneurship	Interior designing	Great teachers who really pushed us to come out of our comfort zone and strive for excellence.	Plan industrial visits
Interior design	Ergonomics	Interior design	Interior design
Advanced studies of psychological disorders	Research methods and statistics	Professors	Counselling therapies should be given focus too.
Ergonomics	Hotel front office , hotel housekeeping	The specialisation provides an opportunity for internship as well as industrial visits which provides students with hands on experience	None

		before stating a job ,this specialisation provides students with better understanding about the subjects thus helping them to make a better choice for further studies .	
Management	Ergonomic	Management	Nothing to improve
Hotel Front Office & Housekeeping Operations	Ergonomics	Choosing Electives , Internships.	might include F&B subject in Hospitality elective,
Food product development practicals	Food chemistry	Food processing, quality management systems, food product development, quality analysis	Food chemistry and food microbiology
Food regulations	Food analysis	Good coverage of overall food science subjects and concepts	Need to introduce more core and indept lessons as per the changing food industry scenario.
Processing of animal foods	-	-	-
Food product development	Nutrition	NPD, QA&QC	Job interviews and placements
Food Microbiology	Nutrition	Processing	None
School administration	Psychological Disorders	Research Work . Practical work . Enhances alot of Independent way of working.	Lack of communication among the students and teachers. Should provide more future opportunities option to the students
Human development	None	Practicals	None
Theories of Human Behaviour and Development	Introduction to Psychological Disorders across the life span	Quality of content, knowledge of teachers, can be easily applied in real life situations for better understanding.	Practical experiance can be enhanced.
Clinical nutrition and diet therapy	Biochemistry	Diet therapy, food industry, community nutrition	Human physiology, biochemistry basics
Food science	Nutrition across life span	Food product development practicals	More industry knowledge
Marketing	None	Application of each of the subjects in practical life	None
Marketing and research and food processing	Food psychology	Food product development	Food psychology
Curriculum planning	Human exceptionality	None	None
Food Product Development	Research and Statistics	Qaulity Assurance, Micro biology,Food science,Food Marketing	Microbiology,Food entrepreneurship,
Ergonomics	Brand retail management	VAC - Ergonomics and Research at Undergraduate level is	Placement should have been conducted.

		very interesting. Internship	
MICROBIOLOGY AND FOOD PRESERVATION	Food informatics	Food quality assurance	Revise of the syllabus is required. There are lot of repetitions in the syllabus in consecutive semesters.
Food Processing and Food Microbiology	Marketing management	Food Processing	None
Clinical nutrition and diet therapy	-	Well explanatory notes and lectures	-
Food Processing	Nothing	Food Analysis	Practical experience
Human Nutrition	None	Clinical Nutrition	Entrepreneurship practicals
Na	Na	-	Na
Ergonomics	Nothing	Extension education	Nothing
ID	Hospitality	Practical learning	Subjects
Hospitality	Human Resources	Public speaking	Confidence
hospitality practicals.	none..	...	overall
Diet therapy	Food production and services and afps	Easy subject to grasp and appear for paper Learn cooking skills	There should be something new. Practical give a lot of unnecessary stress
Clinical	Public nutrition	Everything	None
Occupational health and safety and TQM	Interior designing	Subject matter Teachers and faculty Syllabus Department	They've already done their best
Clinical Nutrition	Food service management	Clinical Nutrition	More emphasis on the practical aspects of the subjects.
Clinical nutrition and Physiology	Foos service management	Clinical nutrition	Community nutrition
Clinical Nutrition	Food service management	Clinical	Food theory
Ergonomics	Evs	Got opportunity to learn about many fields	NIL
Food science	None	Good processing	No
Human Exceptionality	Social psychology	All	Theory application
MICROBIOLOGY AND FOOD PRESERVATION	Food informatics	Food quality assurance	Revise of the syllabus is required. There are lot of repetitions in the syllabus in consecutive semesters.
Clinical nutrition	Entrepreneurship	To be very Specific to my specialization	Nothing
Food biotechnology	Research methodology	Food microbiology, food chemistry, food biotechnology	Food Packaging, processing of plant and animal foods
Human Resource Development	Environmental issues and challenges	HR , Front Office , good Oppurtunity, Good placements, internships (though we not got chance for internships)	Field visit , more practical access to subject..

Ergonomics and work study	None	Human resource, Ergonomics, production process	None
Clinical Nutrition	Food Service Management	Physiology	Clinical Nutrition
Public health practical	Sports nutrition	Covers all important aspects of the subject	Time table for the classes
Workplace safety and TQM	Environmental issues and challenges	Versatility.	More focus on practicals
Human Physiology	Nutrition for endurance sports	Dr. Kiran because of his teaching skills	Better teaching staff
Clinical Nutrition	Food service management	The professors help understand the subject very efficiently and are also very approachable.	— —
Ergonomics	Foundation course	Good relevant subjects	More practical exposure
Na	Na	-	Na
Hospitality	None	Practicals	None
Basic Nutrition, Clinical Nutrition, Food and Dietetics, Applied Nutrition	None as such, learnt from each subject	Theory	Practical
Food Product Development	Entrepreneurship	Packaging, Nutrition lessons	Practicals
Diet therapy	-	Diet planning	-
Ergonomics	NA	NA	NA
Diet therapy	Food service management	Clinical nutrition	Practical knowledge
Diet Planning	Food service management	Clinical Nutrition	More hands on experience
Curriculum planning and Assessment in Early childhood Education.	Human Exceptionality	Practical work was very interesting in this specialization and very understandable	Need to change the Teacher of Human exceptionality. She remove personal grudges in classroom
Interior design	Environmental issues and challenges	It gives lots of opportunities	Everything is good
Biotech	Microbiology	Na	Microbiology
Clinical Nutrition	Public Health Nutrition	All	None
Clinical nutrition	ANPH	Concepts are clear	More practical work
Meal planning, diet therapy, physiology	None	All	None
Marketing management	Environmental science	Marketing	Ergonomics
HRM	None	Communication skills are taught	More interaction
Human resources	Ergonomics	1 month internship	None
Diet therapy (theory and practical)	No	No	No
Physiology	Biochemistry	Food and dietetics	Clinical nutrition
Ergonomics	Human Resource Management	More of practical knowledge so helps to understand better	Everything is well managed

Public nutrition	Biochemistry	Clinical nutrition	Biochemistry
Clinical nutrition by Tasneem Rawat Ma'am, Food and Dietetics by Trisha Ma'am	Food service management	Good amount of topics covered in a short span of time. Most of the subjects are relevant to use in practical life.	Need to be timed properly and lectures should be planned to cover maximum topics in each subject from the beginning. Need Better faculty for some subjects. More teaching required in some subjects.
Food and Dietetics	Fsm	Clinical	Fsm
Hotel front office	Ergonomics	Kitchen planning	Human resource management
Entrepreneurship	None	Good coursework	Less field work
Entrepreneurship	None	Good coursework	Less field work
Clinical Nutrition	Public Health Nutrition	All	None
Introduction to psychological disorder	Curriculum planning	Introduction to psychological disorders	Psychological testing
Curriculum planning and Assessment in Early childhood Education.	Human Exceptionality	Practical work was very interesting in this specialization and very understandable	Need to change the Teacher of Human exceptionality. She remove personal grudges in classroom
Curriculum planning and Assessment in Early childhood Education.	Human Exceptionality	Practical work was very interesting in this specialization and very understandable	Need to change the Teacher of Human exceptionality. She remove personal grudges in classroom
Clinical nutrition	None	-	-
New product development	Food analysis	Internship exposure, practical exposure	Technical knowledge should be kept more focus
NPD practicals	Biochemistry	Good practical knowledge, detailed theory	NA
Food safety	biochemistry	food safety	placements, more practical knowledge
Food science	Research and development	Theory	It's not 2 year course because most of the things repeats in second year
Contemporarisation of Traditional Craft	NGO	Core knowledge of Indian Textiles and manufacturing processes of Indian Textiles	Needs to be Fashion oriented. More focus on illustration and design process. And also focusing on incorporating international textiles and prints.
Textile and garment processing	World historic	Contemporary	Visit to factory
Introduction to psychological disorder	Curriculum planning	Introduction to psychological disorders	Psychological testing

- Would you recommend the course / college to your friends / siblings / others?
